File No. Boilers II / 51 (R)

Gen. 194 a.

61-B

Legal Department.

A reference to holders of certificates of proficiency is not made in thepropose amendment to rule 74 of the Bombay Boilers Rules, 1934, because the Baroda Boilers Inspection rules did not provide for the issue of such certificates. Baroda Boilers Inspection Rules provided for the grant of certification of competency only (see rules 31,33,35,36 of the said rules and Forms VII and VIII appended thereto).

2. From the said Forms, however, it appears that the certificate was granted for competency either as boiler attendant or as an engineer. In the circumstances it is sufficient if the words "as Boiler Attendant" used in the proposed proviso to rule 74 aredelected. That would achieve the object in view.

Additional Secretary to Government.

U.O. to L. & L.D. No. 923 , dated the 15th January 1951.
